

---

<b>Type:</b>	Vanair® EPEQ® WELDER140 stick welder. New and in current production.
<b>Battery Type:</b>	Lithium-ion cobalt with capacity of 604.8WH.
<b>Capacity:</b>	140A stick welder with CC welding capabilities.
<b>Duty Cycle:</b>	20% 140 A; 50% 110A; 100% 80A.
<b>Process:</b>	Stick (SMAW) with built-in hot start.
<b>Input Voltage:</b>	100-240V AC.
<b>Frequency:</b>	50 and 60 Hz.
<b>Charging:</b>	Provides 1.5-hour fast charge and 3-hour standard charge. Machine can run off battery power alone and plugged into the wall if the battery is depleted.
<b>Enclosure:</b>	Completely enclosed.
<b>Operating Range:</b>	14° F - 140° F.
<b>Safeties:</b>	Over charge, overload, over discharge, high temperature, undervoltage and overvoltage, short-circuit, battery cell positive thermal coefficient (PTC), temperature coherence and current equalizations, and reset protection.
<b>Weight:</b>	Dry weight (Lbs.): 34
<b>Dimensions:</b>	18.3" L x 7.6" W x 14.9" H (in.)
<b>Accessories:</b>	Welding Leads – 10' (ft.)
