With Protect•All®

12/24V Integrated Vehicle Mount, Battery Powered Jump Starting with Advanced System Protection!

Ideal for small to medium duty fleets, the integrated Super Boost•All® 12/24V with Protect•All® is designed for mobile applications, with integration to your service vehicle's high idle function for higher charging and increased jump starting power. The Super Boost•All® is equipped with intelligent technology that enables 12V service vehicles to jump start 12V or 24V vehicles without compromising the service truck. Featuring the best protection in the industry, the Super Boost•All® provides protection from reverse polarity, dead shorts and open clamps. It also offers 12V and 24V mode lockout for additional safety.
