
Type:	Vanair® ETL-500 Electric Tool Lift. In current production.
Power Supply:	Linear Actuator: 12VDC ball screw motor with 30A maximum current draw.
Maximum Stroke Speed:	2.7 inches per second.
Temperature Range:	-40°F – 140°F, IP65 rated.
Operating Voltage Range:	10VDC – 16VDC (ratings at 12VDC normal) with a built-in thermal overload control.
Weight:	225 lbs.
Lifting Capacity:	500 lbs.
Dimensions:	Height: 47.5" Width: 17.5" Depth Folded: 16.6" Max Reach: 35.2" Max Drop: 35.0"
Mainframe:	Fully powder-coated paint protection, all pivot points fit with oil-lite bushings.
Warranty:	The unit shall be warranted for one (1) year against defects in materials and workmanship and against the loss of capacity due to wear. The unit will be replaced or repaired at Vanair's discretion as a result of such defects. This warranty does not cover damage caused by accident, misuse, or negligence. If the unit is disassembled the warranty is void.
Features:	Integrated Tool Holders Integrated Protective Equipment Safety Shut-Off Various Hex Tool Posts Ranging from 7/8" – 1 1/4"
